Consumption of fruits and vegetable products

2418. SHRIMATI MOHSINA KIDWAI:

SHRI VIJAY J. DARDA:

Will the Minister of FOOD PROCESSING INDUSTRIES be pleased to state:

(a) whether it is a fact that consumption of value added fruits and vegetable products is low compared to primary processed food in general and fresh fruits and vegetables in particular which is attributed to higher incidence of tax and duties including that on packaging meterial, lower capacity utilization, non-adoption of cost effective technology, high cost of finance, infrastructural constraints, inadequate farmer-processors linkage leading to dependence upon intermediaries; and

(b) if so, the remedial action Government propose to take in this regard?

THE MINISTER OF STATE OF THE MINISTRY OF FOOD PROCESSING INDUSTRIES (SHRI SUBODH KANT SAHAI): (a) and (b) The level processing in fruits & vegetable products is estimated at 2.20% in India. According to the report of M/s. Robo India Finance Pvt. Ltd., the total food market during 2003-04 was estimated at Rs. 8,60,000 crores, whereas the value added processed food market was of the order of Rs. 1,80,000 crores. In order to give boost to growth of FPI sector, the Government
